TUMAKURU SMART CITY USER MANUAL FOR CITIZEN

Smart City Mission

In the approach to the Smart Cities Mission, the objective is to promote cities that provide core infrastructure and give a decent quality of life to its citizens, a clean and sustainable environment and application of 'Smart' Solutions. The focus is on sustainable and inclusive development and the idea is to look at compact areas, create a **replicable model which will act like a light house to other aspiring cities**. The Smart Cities Mission of the Government is a bold, new initiative. It is meant to set examples that can be replicated both within and outside the Smart City, catalyzing the creation of similar Smart Cities in various regions and parts of the country.

The core infrastructure elements in a Smart City would include

1. Adequate Water Supply
2. Assured Electricity Supply
3. Sanitation including Solid Waste Management
4. Efficient Urban Mobility and Public Transport
5. Affordable Housing, especially for the poor
6. Robust IT Connectivity and Digitalization
7. Good Governance, especially e-Governance and Citizen Participation
8. Sustainable Environment
9. Safety and Security of Citizen, particularly women, children and the elderly and
10. Health and Education

TUMAKURU SMART CITY GPMS TRANSPORTAL

As far as Smart Solutions are concerned, an illustrative list is given below. This is not, however, an exhaustive list, and cities are free to add more applications.

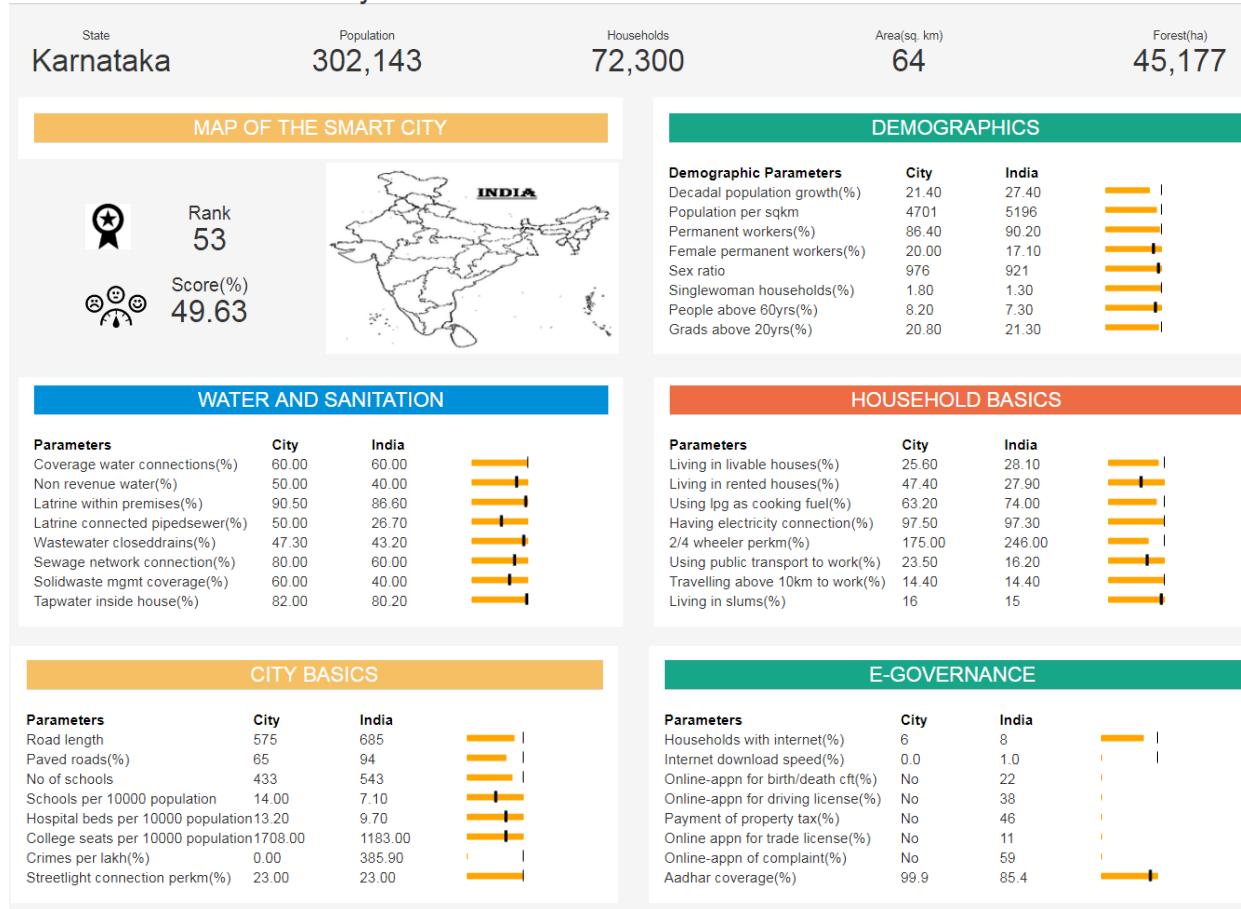

Accordingly, the purpose of the Smart Cities Mission is to drive economic growth and improve the quality of life of people by enabling local area development and harnessing technology, especially technology that leads to Smart outcomes. Area-based development will transform existing areas (retrofit and redevelop), including slums, into better planned ones, thereby improving liveability of the whole city.

New areas (Greenfield) will be developed around cities in order to accommodate the expanding population in urban areas. Application of Smart Solutions will enable cities to use technology, information and data to improve infrastructure and services. Comprehensive development in this way will improve quality of life, create employment and enhance incomes for all, especially the poor and the disadvantaged, leading to inclusive Cities.

Transportal Features

Indian CST welcomes you to try the new version of its TRANSPORTAL that is intended to facilitate citizen engagement in governance. The TRANSPORTAL is an ICT initiative for Citizen Engagement at Governance at all levels.

- Leverages state of the art technologies like cloud computing, big data, mobile apps, analytical engines along with management concepts like crowd sourcing, professional project management ,program monitoring, evaluation, control etc.
- Real-time decision support system which enables citizen and government to take informed decision and be a part of decision making
- Enables collaborative partnership between citizens, government, corporates which will help to achieve the Seventeen Sustainable Development Goals even before 2030
- Applies to all levels of Governance from Global to Local and even Corporate Governance.
- Provides omnibus ICT tool for Citizen Engagement in myriad contexts which puts Citizen first and foremost
- Gives the Governance a single point of contact for ascertaining citizen preferences for the policy formulation as well as it gives Citizen, a single window of delivery of citizen services as per citizen charter
- Facilitates stakeholder management, project management and helps in team building

Revenue Analytics
See how different revenues are collected in your area and how they are used in public works

Project Analytics
Track important projects in your area, and participate in Public Finance Management to ensure outcomes match outlays

Governance
Single window for citizen services, citizen to government to citizen connect

Petitions
Post complaints on civic issues in your neighbourhood (Potholes, garbages,etc) Motivate the community to engage with civic authorities meaningfully for resolution of all issues

Document Locker
Save your documents online. Share your documents with your family, friends, workmates and interest groups etc.

Suggestions
Download and use Mobile apps to give suggestions and raise issues with authorities

TUMAKURU SMART CITY GPMS TRANSPORTAL

Tumakuru Smart City GPMS Transportal provides various services to Citizen, Students, Business and Formers.

Services

The screenshot shows the homepage of the Tumakuru Smart City GPMS Transportal. At the top, there is a navigation bar with links for HOME, ABOUT US, MISSION, SERVICES (which is highlighted with a red box), PROJECTS, ONLINE HELPDESK, and LOGIN/REGISTER. Below the navigation bar is a large banner with the text 'TAKING STOCK OF INDIA' and 'CITY MISSION' over a stylized cityscape illustration. To the left of the banner, there is a vertical bar with the text 'Sustainable Development Goals'. The main content area is currently empty.

Help Desk: The user can give his/her suggestion on General or on Projects

The screenshot shows the 'Add Suggestion' form in the center. It has fields for 'Department' (with a placeholder 'Enter the Department concerned...'), 'Title' (with a placeholder 'Title for your complaint... (max 50 characters)'), and 'Description' (with a placeholder 'Your Description of Complaint... (in not more than 1000 characters)'). Below these is an 'Upload Image' section with a 'Choose File' button. At the bottom are 'Close' and 'Submit Suggestion' buttons. To the right is a list of suggestions with columns for 'Filed By', 'Filed On', 'Image', 'More Info', and 'Comment'. The list includes entries from 'abhishek' (07/06/2016 03:41pm), 'Vaibhav' (17/05/2016 11:09am), 'abhishek' (07/06/2016 03:41pm), 'Ankita Mod' (20/10/2016 04:16pm), and 'Guest' (26/07/2016 04:31pm). The left sidebar shows a navigation menu with 'Citizen FIRST' and 'Help-Desk' selected.

Petitions: The Petition can be raised by an user and also can upload any document related.

The screenshot shows the 'Petitions' form. It has tabs for 'What needs change?', 'Who can change?', 'Tell your story', and 'Add a photo'. Below these tabs is a text input field with the placeholder 'Identify the individual, group or organization that is going to be the decision maker in implementing the change.' At the bottom is a 'Save & Next' button. The left sidebar shows a navigation menu with 'Petitions' selected.

TUMAKURU SMART CITY GPMS TRANSPORTAL

DMS: Here User can maintain his documents as Private, Public, Shared and Restricted Documents:

The screenshot shows the 'Document Locker' section of the Tumakuru Smart City GPMS Transportal. On the left, a sidebar menu is visible with the following items under 'DMS': Private Documents, Shared Documents, Restricted Documents, and Public Documents. The 'Public Documents' item is highlighted with a red box. The main area displays a grid of uploaded documents. The first four documents are 'Pending' and have 'Bulk Upload' labels. The fifth document is a 'NREGS Job Card' (Pending, 0 KB, 04 Apr 2016). The sixth document is a 'JPG' file (Pending, 77 KB, 09 May 2016). The seventh document is a 'PNG' file (Pending, 105 KB, 09 May 2016). The eighth document is a 'PDF' file (Pending, 0 KB, 04 Apr 2016). At the top right, there are buttons for 'Search Here...', 'Upload', 'Send Documents For KYC', 'Bulk Upload', and 'Help'. On the right, a 'Storage' summary shows 0.29 MB (0%) used of 10 GB, with an 'Add folder' button and a list of 'My-Documents' and 'Mobile-Uploads'.
