Steps:

Visit <http://www.smartcitytumakuru.in/> and click on the menu PMU for Tumakuru Smart City GPMS Transportal

The screenshot shows the homepage of the Smart City Tumakuru website. At the top, there is a navigation bar with links for Home, Tumakuru City, PMU (highlighted with a red box), Smart City Mission, Tenders, Projects, About Us, and More. Below the navigation bar, there is a banner with text: 'E-mail : office@smartcitytumakuru.in | Call : 0816-2278190 | Location : Tumakuru, KA, India' and 'Follow Us on : [Facebook, Twitter, YouTube] [Login]'. The main content area features a 3D rendering of a proposed smart road with a red bus stop, trees, and a road with cars. Below the rendering, the text 'Proposed Smart Road at Field Marshal Cariappa Road' is displayed. At the bottom of the page, there is a banner for 'Sustainable Development Goals' featuring two circular portraits of men: Sri H. D. Kumaraswamy (Hon'ble Chief Minister of Karnataka) and Sri Dr. G. Parameshwara (Deputy Chief Minister of Karnataka). The banner also includes the text: 'THE KARNATAKA INDUSTRIAL AREAS DEVELOPMENT BOARD HAS CREATED COMPREHENSIVE INFRASTRUCTURE FACILITIES FOR SETTING UP OF INDUSTRIES IN THE STATE.' The website URL 'https://tscl.indiancst.com/India/Citizen/login/index.html' is visible in the browser's address bar.

TUMAKURU SMART CITY GPMS TRANSPORTAL

The screenshot shows a grid of six service icons under the heading 'G2C Services at the Farmers doorstep'. Each service has a small image, a title, a brief description, and a 'VISIT PAGE' button.

Service	Description	Action
Farm Mechanisation	Find details of Manufacturer and dealers of farm machineries in State/Districts/B	VISIT PAGE
AgMarket	Find commodity minimum market price in nearby Mandis	VISIT PAGE
Kisan Suvidha	Check weather condition and agriculture advice for the city	VISIT PAGE
Crop Insurance	Calculate your insurance premium and total insured amount for your crops according to government schemes	VISIT PAGE
Soil Health Card	Get the soil health card for your land with cropwise recommendation of nutrients and fertilisers	VISIT PAGE
E-Pashuhaarat	A market place for farmers to trade live animals, avail germplasm services, without intermediaries at the farmers doorstep	VISIT PAGE

The screenshot shows the 'Smart City Mission' section of the website. It includes a brief description of the mission, a heading for typical features, and a numbered list of 10 features.

Smart City Mission

Some definitional boundaries are required to guide cities in the Mission. In the imagination of any city dweller in India, the picture of a smart city contains a wish list of infrastructure and services that describes his or her level of aspiration. To provide for the aspirations and needs of the citizens, urban planners ideally aim at developing the entire urban eco-system, which is represented by the four pillars of comprehensive development-institutional, physical, social and economic infrastructure.

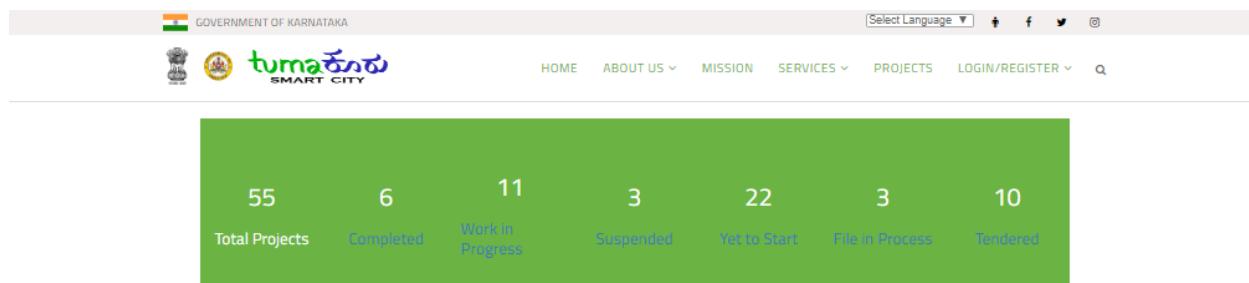

Some typical Features of comprehensive development in Smart Cities are described below.

- Promoting mixed land use in area based developments—planning for ‘unplanned areas’ containing a range of compatible activities and land uses close to one another in order to make land use more efficient. The States will enable some flexibility in land use and building bye-laws to adapt to change.
- Housing and inclusiveness – expand housing opportunities for all.
- Creating walkable localities –reduce congestion, air pollution and resource depletion, boost local economy, promote interactions and ensure security. The road network is created or refurbished not only for vehicles and public transport, but also for pedestrians and cyclists, and necessary administrative services are offered within walking or cycling distance.
- Preserving and developing open spaces - parks, playgrounds, and recreational spaces in order to enhance the quality of life of citizens, reduce the urban heat effects in Areas and generally promote eco-balance.
- Promoting a variety of transport options - Transit Oriented Development (TOD), public transport and last mile para-transport connectivity.
- Making governance citizen-friendly and cost effective - increasingly rely on online services to bring about accountability and transparency, especially using mobiles to reduce cost of services and providing services without having to go to municipal offices. Forming e-groups to listen to people and obtain feedback and use online monitoring of programs and activities with the aid of cyber tour of worksites.
- Giving an identity to the city - based on its main economic activity, such as local cuisine, health, education, arts and craft, culture, sports goods, furniture, hosiery, textile, dairy, etc.
- Applying Smart Solutions to infrastructure and services in area-based development in order to make them better. For example, making Areas less vulnerable to disasters, using fewer resources, and providing cheaper services.

GPMS TRANSPORTAL FOR UNIVERSAL HEALTHCARE

Initiative by the Ministry of Health and Family Welfare, Govt. of India, Niti Ayog, Govt. of Karnataka and Powered by Indian CST

TUMAKURU SMART CITY GPMS TRANSPORTAL

GPMS Transportal for Universal Healthcare Integration with UMANG

Improving Healthcare for a better Karnataka.

Department of Health & Family Welfare Services

Indian CST has invited the MoU with Karnataka State Government Health and Family Welfare Department, Govt. of Karnataka (HFWD) to be in force for a period of 10 years (till 27.04.2027) under CST MoU. In line with the integrated GPMS Transportal for Universal Healthcare Cloud Computing Solutions Platform is being rolled through out in the KTK State 30 districts, 30,000 health centers which includes Primary and secondary health centers including of Ministry and Chair with Citizen Electronic Health Record with all Clinical Parameters that will allow Multiple Ministry / Stakeholders / Hospitals/ PHCs/ District / Associated Healthcare Projects / Schemes to work on a single platform. The 4-5 crores patients / citizens who will be able to access online to view their own medical records data online, any time, from anywhere, on any device, and further enabling the implementation of 300-3 in the State of Karnataka.

<http://www.karnataka.gov.in/hfw/publicages/Home.aspx>

- SATH is an initiative through which NITI Aayog will partner with three states and to transform the health sector of the Indian states.
- NITI Aayog (the premier think tank of the Government of India) has selected Karnataka to improve healthcare delivery and key outcomes along with Uttar Pradesh and Assam.

INTRODUCTION OF UMANG

UMANG:-

Unified Mobile Application for New-age Governance (UMANG) is a Digital India initiative launched by National e-Governance Division (NeGD), Ministry of Electronics and Information Technology. UMANG provides access to major citizen-centric services, offered by Central and State Government departments, Local bodies, and other utility services from organizations primarily through a single mobile App (all mobile platforms via Android, iOS and Windows) and Web. However, particular services may be made available on Pull SMS and/or IVR if the respective departments want to provide their services through any such channels.

With UMANG, you do not need to download multiple mobile apps for availing services of different government departments. You can easily navigate and access multiple government services on one app with uniform experience.services on one app with uniform experience.

Service Provider On UMANG :

A service provider can be a Central and State Government department or a local government body. These government bodies aim at providing instruments for accessing and availing various utility services. In future, citizen-centric services offered by non-government entities can also become service providers.

Services On UMANG:

UMANG aims to provide major government services. The Onboarding of different citizen-centric government services on UMANG is envisaged to be a continuous process that will result in increasing numbers of such services on UMANG with the passage of time. Target is to provide more around 1200 services sourced from various department applications.

TUMAKURU SMART CITY GPMS TRANSPORTAL

Customer Support on UMANG:

If you are facing trouble with a service availed on UMANG, you can contact the UMANG customer support team through the “Help and Support” section of the UMANG application. You can “drop a query” or “live chat” with our customer care representatives inside the app. Further, you can directly call at Toll Free Number – 1800-115-246 or drop an email at customercare@umang.gov.in. You can also submit your feedback using Submit Feedback option available in the Settings section of the UMANG application.

UMANG customer support team strives to get your concerns addressed at the earliest. Still, if you haven't got a response from us. You can contact us using any other medium such as:

- Live chat
- Email support
- Phone support
- Post a Query using the app

If you are trying to resolve your issue through email or phone, ensure that you use the correct email address and phone number, respectively.
